【Abstract】

Beolgyo-eup, target area, is a small local town changed into a modern city from the market in Nakangun excluded county in modern age. Eup is the smallest unit in administration area and the centrality of economical, social and cultural place in an agricultural and fishing village. Especially Beolgyo is the place the ideological conflict after Independence was reflected on a novel 'Taebaek Mountains'.

The origin of Beolgyo urbanized from the vitalization of marketing was
the Jangjwa and Beolgyo market in Joseon era. Making up the urban change as the urban system, At first, Two scattered towns made by markets were turned into linear one through the trunk road. Second, Trunk roads and the same branch roads were repeatedly branched on a reclaimed land and showed the commercial urban construction as the characteristics in a widen city.

Key words : Beolgyo, Jangjwa, the market in Joseon era, Taebaek Mountains
